Summary

I am a highly motivated and hardworking individual with a creative mind, strong work ethic, and dedication to collaboration. My skills include exceptional problem-solving and numeracy abilities, effective communication and leadership, and efficient time management. As a proactive and driven engineer and leader with development experience, I have successfully designed and deployed software solutions for various business use cases, from conception to implementation. I excel in JavaScript development and have built software solutions for the healthcare, and entertainment industries, among others.

Technologies & Skills

Node.JS, Express.js, React.js | JavaScript, TypeScript | Docker | SQL, MongoDB, PlanetScale | GraphQL, REST API | Git, Github | Microsoft Office | Teams, Slack, Jira & Trello | Scrum | Individual Counselling

Experience

Decagon / Full Stack Engineer

May 2022 - Date, LAGOS

Developed and maintained web applications using web development concepts such as HTTP, REST, GraphQL, and MVC architecture. Built and managed databases using database management systems such as SQL and MongoDB. Implemented DevOps tools and methodologies such as Docker to improve application deployment and scalability. Utilized TypeScript to write clean, efficient, and well-documented code. Collaborated with cross-functional teams including product managers, designers, and other developers to build new features and enhance existing ones. Ensured the performance, security, and reliability of web applications by implementing best practices and testing strategies. Stayed up-to-date with emerging trends, technologies, and development practices in the web development field.

Techvibes International Ltd / User Experience & Marketing support

June 2019 - June 2020, ABUJA

Gathering and writing reports on product requirements for software; quality assessments of products through identifying, and documenting problems and coordinating with the technical team to proffer solutions; monitoring and reporting users' reactions after launching software; supporting and training internal and external users.

Projects

FitMind

A health-tech app that connects clients with verified physical fitness experts and therapist.
