SUMMARY

I am a highly motivated and dedicated individual with robust knowledge of agile methodologies, particularly scrum. I have experience working remotely and understand the importance of good communication. With strong problem-solving skills and efficient time management, I have designed and implemented software solutions for various business needs. My expertise lies in Node.js development, and I have a successful track record in industries such as healthcare and entertainment. As a proactive engineer and leader, I excel in collaborative environments and bring a strong work ethic to every task.

EXPERIENCE

Decagon, Lagos Nigeria — Software Engineer

JUNE 2020 - Date

- Developed and maintained web applications using web development concepts such as HTTP, REST, GraphQL, and MVC architecture, utilizing TypeScript to write clean, efficient, and well-documented code.
- Built and managed databases using database management systems such as SQL and MongoDB.
- Implemented DevOps tools and methodologies such as Docker to improve application deployment and scalability.
- Collaborated with cross-functional teams including product managers, designers, and other developers to build new features and enhance existing ones.
- Ensured the performance, security, and reliability of web applications by implementing best practices and testing strategies and staying up-to-date with emerging trends, technologies, and development practices in the web development field.

Techvibes International Ltd, Abuja Nigeria — User Experience

JUNE 2019 - JUNE 2020

- Gathered and wrote reports on product requirements for software, ensuring clear understanding of client needs and specifications.
- Conducted quality assessments of products by identifying and documenting problems, working closely with the technical team to propose effective solutions.
- Monitored and reported users' reactions and feedback after launching software, allowing for continuous improvement and enhancement of user experience.
- Provided support and training to both internal and external users, ensuring their successful utilization of the software and addressing any questions or issues they encountered.

TECHNOLOGIES & SKILLS

- Node.js
- Express.js
- React.js
- JavaScript
- TypeScript
- Docker
- SQL
- MongoDB
- GraphQL
- REST API
- Git & Github
- Teams
- Slack
- Jira
- Scrum

OTHER EXPERIENCE

Appen, UK (Remote) — Freelancer

FEBRUARY 2020 - AUGUST 2021

Search Engine Evaluator
- Evaluated and analyzed search engine results based on specific guidelines and criteria.
- Provided feedback on the accuracy and relevance of search engine algorithms and results.
- Stayed updated with the latest search engine trends and guidelines to improve evaluation accuracy.

Social Media Evaluator
- Assessed and evaluated the quality and relevance of social media content and advertisements.
- Provided feedback on social media trends, user behavior, and engagement to enhance algorithms and ad targeting.
- Identified and reported any content or policy violations observed during the evaluation process.

Transcriptionist
- Accurately transcribing audio or video content while following transcription guidelines.
- Maintaining high-quality transcripts with accurate grammar, punctuation, and formatting.
- Meeting project deadlines and productivity targets while ensuring attention to detail and maintaining confidentiality.

PROJECTS

MovieVerse

MovieVerse is a movie listing app where registered users can add, edit and delete movies with titles, images, prices and brief descriptions. It offers a user-friendly interface to manage the movie list easily. Technologies used include: Express.js, Typescript, MongoDB, Mongoose, Docker, EJS. **Link**: https://movie-verse.onrender.com

FitMind

A health-tech app that connects clients with verified physical fitness experts and therapist. Technologies used include: Express.js, Typescript, Sqlite, Sequelize, React. **Link**: https://github.com/MM-Alkali/FitMind.git

My Portfolio

A responsive Single Page Application that showcases my skills and projects as a software developer. Technologies used include; HTML, CSS and Vanilla JavaScript. **Link**: https://www.mmalkali.me

EDUCATION

Modibbo Adama University of Technology, Yola Nigeria
